

COPPER PIPING FLEX CONNECTORS

Copper Hex Male NPT Flex Connectors

- Designed to isolate equipment vibration and minimum permanent offset.
- Bronze corrugated hose & braid with copper hex Male NPT end couplings.
- High-Pressure Ratings
- Flexibility and optimum resistance to flux chemicals,

UL Vibration Isolator Flex Connectors

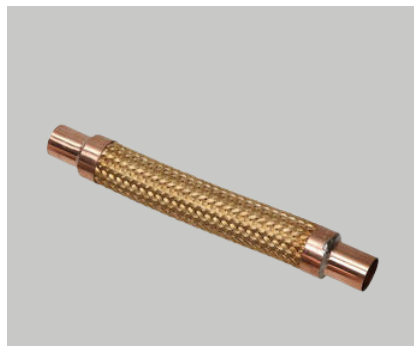

- Suitable for reducing vibration in refrigeration and HVAC applications or as an extended length connector for copper pipe.
- Bronze hose & braid with copper sweat female end couplings.
- U.L. Rated
- Provides flexibility / noise & vibration control.
- High-Pressure Ratings: 440 PSIG to 450 PSIG depending on size.
- High temperature ratings
- Corrosion Resistant
